

Brake Edge

BRAKE CLEANING SOLVENT

PRODUCT PROFILE

Brake Edge is a blended safety brake cleaning solvent formulated to remove dust, oil, grease, brake fluid and dirt from brake parts, springs, plates, shoes and all other related equipment. A clear, water thin blend of petroleum solvents, Brake Edge evaporates quickly and completely and will not adversely affect any type of brake equipment, assembled or unassembled. Brake Edge controls the level of hazardous dust in the air during use and air dries very quickly, leaving surfaces clean and residue free.

Brake Edge provides superior cleaning power on contact, effectively increasing the efficiency of brake repair and inspection programs. It is ideal for use in a variety of vehicle maintenance shops including auto dealers, auto and truck repair shops, brake shops, and tire stores.

SPECIAL FEATURES:

- **Contains no chlorinated hydrocarbons**
- **Evaporates quickly, leaving surfaces clean and residue free**
- **Increases brake cleaning and inspection efficiency**
- **Safe for use on all metal parts**
- **Minimizes airborne particulates**
- **For use on any type brake equipment, assembled or unassembled**
